

# Mikołaj Sodzawiczny

Software Engineer

## SUMMARY

Creative, detail-oriented, full-stack software engineer with a deep interest in accessibility and robotics. Proven track record of creating and implementing successful front and back end web applications. Looking to bring my skills to a tech company with global reach.

## WORK EXPERIENCE

### React Engineer at Lambda, Amsterdam, NL

May 2022 — Present

- Developed product tours with React for a new feature, improving customer satisfaction
- Worked with UX/UI design teams to improve existing applications
- Designed multiple dynamic and browser compatible pages using HTML5, CSS3, Javascript (React, Redux).
- Applied agile methodologies like SCRUM for project management

### Software Engineer at 100devs, Los Angeles, CA

January 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

### Recent Projects:

**NYT Book Carousel (Fullstack Web App)** – Everybody can see current week's best selling hardcover fictional books. The web app is minimalistic and uses NYT api at its core.

**Netflix Clone (Fullstack Web App)** – A Netflix UI clone built with Firebase where users can register and login to the website.

**Tony's Speciality (Frontend Website)** – Beautiful website for a cafe based in Lisbon that serves speciality coffee

**Lentil Bonanza (Frontend Website)** – Minimalistic restaurant website with playful color palette

**100Hours Project (in progress)** – ReallyBooky is a MERN book-tracking platform currently being built that will allow fellow readers to track their progress, choose a random book and many more

**Other Projects:** Random book chooser, D&D checker, Los Angeles StarGazers Society APOD Web App with NASA API integration, On-demand background color changer for Partnered Twitch streamer, and many more,
